- Superior Cutting Performance: Guide surfaces ensure effortless cutting of two-layer cartons and other materials.
- Durable and Economical:
 - Robust handle with replaceable blade heads.
 - Blades are double-sided for extended use.
- Sustainable:
 - Made in Solingen, Germany, from up to 80% recyclable plastic.
 - Powered by sustainable energy during production.

X7070

Application Areas :

The CUTX MAXI X7070 VarioCut is suitable for both right- and left-handed users and provides secure, precise cutting for various materials:

foil

Cardboard

strapping tape

adhesive tape

paper

Cutting of: Cardboard, paper, adhesive tape, strapping tape, foil For right- and left-handed people

Easy change blade

The blade is firmly moulded into the blade head. The blade can be changed without tools by replacing the blade head. This also minimises the risk of injury.

1

Open the locking screw by turning to the left

2

Pull out the blade head

3

Insert new blade head
Blade type: H10006

4

Close the locking screw by turning it to the right

see also safety instructions

Spare parts / blades

The replacement blades are supplied in dispensers of 10 each.
H10006 Standard blade VarioCut

Safe handling

The safety hook on the CUTX maxi X7070 is always located in front of the blade. This prevents injury to people and goods.

1

2 A

Attach blade / insert hook

2 B

Angle the knife side-ways for cardboard marking

3

Carry out the cut quickly
