

polypropylene Acrylic LN

1. Product construction

carrier
adhesive

Description

polypropylene
waterbased acrylic

Color

Transparent
Transp /white /brown

Thickness (µm)

28
18 +

46

2. product advantages

A polypropylene carrier in combination with a waterbased acrylic adhesive

3. main application

Polypropylene Acrylic LN is designed for general box-sealing purposes.

4. features

Initial adhesion/tack
Final adhesion
Dimensional stability

5. suitability on

High energy plastics: PVC, PC, ABS
Low energy plastics: PE, PP
Metal
Paper/Cardboard

6. Technical data

Peel adhesion to SS
Tensile Strength
Elongation

Testing method

Afera 5001
Afera 5004
Afera 5004

Unit
